

STAY SAFE: LIVING FUTURE EUROPE RESILIENCE LOUNGE

Following the International Living Future Institute (ILFI) board chair's latest [message](#):

“These are unprecedented times navigating through uncharted waters.

The global pandemic caused by the novel corona-virus is grabbing all the headlines, our attention, and more and more, our well-being.

The only thing certain is that we're not alone.”

We need to be united, even if remotely connected, to be safe, following all the strict codes of conduct our governments are putting into force, and to keep our spirit of advocacy alive more than ever, looking forward to a Living Future. In one word, we need to be resilient.

Optimism produces energy and we should be capable to take the good from the bad. That is why Living Future Europe, following ILFI's [example](#), every Wednesday at 5 – 6:30 PM (GMT) becomes your “Resilience Lounge” where you can meet our European LF friends, talk about green culture, regenerative sustainability, social justice, share ideas and make plans to be ready to restart when all of this situation will be over, stronger than ever.

Participation is free, upon registration. No agenda. You can join us at the time you prefer, no punctuality is requested in these exceptional times. Dress code: least formal. We won't provide drinks, so feel free to bring yours. Pets are allowed, obviously.

#stayhome #take care #staysafe

Carlo Battisti

President, Living Future Europe
